The Department of Master of Computer Application was established in the year 2001 with the intake of 60 seats affiliated from RTU and approved from AICTE. The objective of department is producing high quality professionals to meet the demands of emerging fields of Computer Applications.

About the Conference

The aim of this conference (NCASET-2023) is to facilitate the exchange of knowledge, ideas, and experiences among participants, fostering a collaborative and intellectually stimulating environment. The conference aims to disseminate cutting-edge research and developments in science, engineering, and technology, allowing researchers to showcase their work and receive feedback from peers. The conference provides networking opportunities for participants to establish connections, collaborations, and partnerships with experts, professionals, and peers in their respective fields.

Scope of the Conference

The scope of the National Conference on Advances in Science, Engineering & Technology (NCASET) typically revolve around promoting the exchange of knowledge, research findings, and innovations in the fields of science, engineering, and technology. While the specific scope and objectives may vary depending on the organizers, here are some common aspects that conferences with similar themes may focus on:

- Multidisciplinary Approach
- Research Presentations
- Technology Applications
- Industry Perspectives

Objectives of the Conference

- Promote Scientific Advancements
- Foster Interdisciplinary Collaboration
